

DAY 1

25th March, 2022

Track 1 - AI & Organisational Building

Time	Track	Company	Speaker	TZ	Topic	Description	Duration
09:00	AI	Zir Inc.	Amr Awadallah	U	Neural Rank, the next wave of cross-domain cross-language Information Retrieval	Catch Amr Awadallah share his insights on Neural Rank	29:35:00
09:30	AI	Julia Computing	Viral B. Shah	U	Accelerating scientific discovery through composable, AI guided modeling and simulation	Viral B. Shah talks about their journey on AI guided modeling and simulation	36:54:00
10:00	AI	Intel	Akanksha Bilani	I	AI/ML at scale for efficient business	Catch Akanksha Bilani share their insights on AI/ML	25:58:00
10:30	AI	Carsales	Agustinus Nalwan	A	How to exponentially scale up AI with MLOps	Agustinus Nalwan talks about their journey on scaling up AI with MLOps	15:37
11:00	AI	Intel	Zhuo Wu	A	Connecting the Real-World and Metaverse via Real-Time Digitization	Catch Zhuo Wu share their insights on Real World and Metaverse connecting	44:21:00
11:30	AI	Shadowfax Technologies	Vaibhav Khandelwal	I	AI in logistics Sector	Vaibhav Khandelwal talks about their journey on use of AI in logistics sector	32:06:00
12:00	AI	Koo	Phaneesh Gururaj	I	NLP at Koo	Catch Phaneesh Gururaj share their insights on NLP	35:48:00
12:30	AI	Mfine	Ajit Narayanan		Foundations of Intelligent Systems	Ajit Narayanan talks about their journey with Intelligent Systems	
13:00	AI	Google Cloud	Rishi Singhal	I	Streaming analytics with Dynamic schema	Catch Rishi Singhal share their insights on the Dynamic Schema	37:11:00
13:30	AI	Intel	Amarpal S Kapoor	I	HPC on Heterogenous Architecture with one API	Amarpal Kapoor talks about their journey on Heterogenous Architecture	01:10:51
14:00	AI	Sundial	Nirant Kasliwal	I	GPT3 Modern Software: NLP Without Data Scientists	Catch Nirant Kasliwal share their insights on NLP Without Data Scientists	39:46:00
14:30	AI	Intel	Sheik Mohamed Imran		Low latency Inference for Transformer on Cloud	Sheik Mohamed Imran talks about their journey on Low latency Inference	38:12:00
15:00	Organisational Building	Meesho	Chetan Kalyan	I	Developer mindset for hyper-growth startups	Catch Chetan Kalyan share their insights on developer mindset for hyper-growth startups	20:38
15:30	Organisational Building	DevRev	Dheeraj Pandey	U	The Wealth of Developers and the "Invisible Hand"	Dheeraj Pandey talks about their perspective on the Wealth of Developers and the "Invisible Hand"	25:29:00
16:00	Organisational Building	The Product Folks	Suhas Motwani	I	Community Management 101	Catch Suhas Motwani share their insights on Community Management 101	17:33

Track 2 - DevOps & OpenSource

Time	Track	Company	Speaker	TZ	Topic	Description	Duration
09:00	DevOps	Bicycle.ai	Bhaskar Sunkara	U	If You're Doing Data-Driven DevOps, You're Doing It Wrong	Catch Bhaskar Sunkara share his insights on Data-Driven DevOps and how to move beyond it	19:01
09:30	DevOps	AWS	Donnie Prakoso	A	From Zero to Deploy: The Importance of Developer Tools to Build Applications	Donnie Prakoso talks about their journey with the Importance of Developer Tools to Build Applications	49:55:00
10:00	DevOps	Argonaut	Surya Oruganti	U	Cloud Infrastructure at Early Stage Startups	Catch Surya Oruganti share his insights on the Cloud Infrastructure at Early Stage Startups	33:45:00
10:30	DevOps	Google Cloud	Subram Natarajan + Suresh Khemka	I	A Cloud Built for Developers	Join these experts as they share their perspective on A Cloud Built for Developers	35:00:00
11:00	DevOps	Coralogix	Ariel Assaraf	M	Observability in 2022	Catch Ariel Assaraf share his insights on Observability in 2022	31:39:00
11:30	Devops	CoLearn	Swanand Pagnis	I	The Road to Continuous Deployments	Swanand Pagnis talks about The Road to Continuous Deployments	83:00:00
12:30	DevOps	AWS	Derek Bingham	A	Five design patterns to build resilient applications	Catch Derek Bingham share his insights on building resilient applications	40:11:00
13:00	Open Source	SphereEx	Juan Pan		How to Grow and Mentor an Open Source Community & Achieve Collaboration with Over 170 Listed Corporations	Juan Pan share her insights on mentoring an Open Source Community	23:17
13:30	Open Source	Supabase	Anthony Wilson		How the Supabase Architecture enables "Supa" DX	Anthony Wilson talks about his journey with Supabase	36:16:00
14:00	Open Source	Sturdy	Kiril Videlov		Building a real-time version control platform	Catch Kiril Videlov share his insights on building a real-time version control platform	17:59
14:30	Open Source	AWS	Ricardo Sueiras		Automating data pipelines with Apache Airflow	Ricardo Sueiras talks about his journey on Automating data pipelines with Apache Airflow	30:30:00
15:00	Open Source	Typesense	Jason Bosco	U	An Easier To Use Elasticsearch Alternative	Catch Jason Bosco share his insights on Elasticsearch Alternative	39:23:00
15:30	Open Source	Svix	Tom Hacoen	M	Challenges of building an API Service	Tom Hacoen talks about their journey on building an API Service	41:31:00
16:00	Open source	Appsmith	Nikhil Nandagopal	I	Optimize Engineering time with Low Code	Catch Nikhil Nandagopal share his insights on optimizing Engineering time with Low Code	37:16:00
